Top Skills

React.js
Node.js
MongoDB

Certifications

Front End Development Libraries
Introduction to Software Engineering
Responsive Web Design
Legacy FrontEnd

Harsh Sawant

Full Stack Developer | Automation & Workflow Engineering | React.js, Node.js, AWS
Mumbai, Maharashtra, India

Summary

Full Stack Developer with 2+ years of experience building scalable web applications, automation workflows, and production systems using React.js, Next.js, Node.js, GraphQL, and AWS.Experienced in frontend, backend, deployment, debugging, API workflow automation, and operational problem-solving across production environments. Skilled in reverse-engineering backend workflows, optimizing repetitive operational tasks, and supporting deployment/ infrastructure processes using modern engineering practices.

Experience

Enpointe IO

Junior Software Programmer
July 2023 - Present (3 years 4 months)
Mumbai, Maharashtra, India

Built and deployed 3 high-performance marketing landing pages using Next.js and Tailwind CSS, improving page load speed and mobile responsiveness across devices.

Designed and integrated RESTful APIs using Node.js and Express.js, enabling seamless data exchange between front-end interfaces and back-end services.

Implemented secure authentication systems using JWT and session management, ensuring protected access across user-facing and admin-facing modules.

Architected and managed MongoDB schemas for dynamic web applications, optimizing queries to reduce data retrieval time and improve overall app performance.

Built internal dashboards and admin panels using React.js, giving teams real-time visibility into application data and streamlining operational workflows.

Education

Manipal University Jaipur

Master of Computer Applications - MCA, Computer Science · (September 2024 - August 2026)

Thakur College of Science & Commerce

Bachelor of Science - BS, Computer Science · (September 2020 - May 2023)
